

Bridge for Brain Research Challenge 2018

NeuRA researchers are calling upon Bridge players across Australia to use their brain in the name of medical research. The Bridge for Brain Research Challenge held each May has raised almost half a million dollars since 2004.

NeuRA is an independent, not-for-profit research institute based in Sydney, Australia. As a leader in brain and nervous system research, their goal is to prevent, treat and cure brain and nervous system diseases, disorders and injuries through medical research. The Bridge for Brain Research Challenge promotes the benefits of playing bridge whilst helping raise crucial funds required to continue research.

Be part of this national group who are helping someone you know, you care for, or care about.

Date : Wednesday, 2nd May, 2018

One Session Event commencing 12.30 pm
