Bridge Humour

During World War 2 a US plane was forced to ditch in the ocean, and four survivors reached a deserted island. "Let's send up a signal flare", said one of the aviators.

"Won't work", said a second, "Let's make a fire so the smoke will attract attention".

"No good", said a third, "We need all the wood we've got to build a shelter".

"Whoa!" said the last. "Let's shoot down another plane so we can have a team game".
